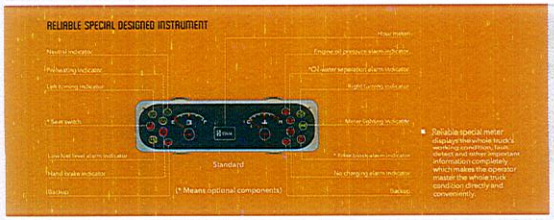
HELI

RELIABLE SPECIAL DESIGNED INSTRUMENT



■ Reliable special meter displays the whole truck's working conditions, facilitates direct and timely operations' information completely, which makes the operator master the whole truck condition directly and conveniently.

Standard configuration

Hour meter	Overhead guard	Driver's rail	User-specified color
Horn	Standard fork	Warning light	Optional attachment
Oil pressure alarm	Neutral gear switch	High air exhausting device	Sling
Control valve	Hydraulic circuit oil filter	Double air cleaner	Full LED light assy
Wholly hydraulic powered steering	Electro-hydraulic changing-over	Suspension seat	Power switch
Rubber pad	Intelligent shift	Fork extension	Reversing mirror spoken
Backrest	Speed limiting valve	Muffler	Universal key
Rear view mirror	Oil level gauge	Solid tyre	Overspeed 10km/h alarm
Front combined lamp (LED light)	Charging indicator	Widen fork carriage	Electric fan
Transmission oil filter	Wide view mast	Wind shield	OPS(Travelling function and loading function)
Engine flame out device	Air intaking device	Purifying muffler	
Ratchet type parking brake	Durable tire with decorative pattern	Fire extinguisher muffler	
Water temperature meter	Lifting and tilting operating handles	Fire extinguisher	
Driver's tools	Traction pin	Rear working light	
Rear combined lamp(LED)	Semi-suspension seat	Air conditioner (contain t-pin)	
Reversing buzzer	Hydraulic oil dipstick	OPS (travelling function)	
Tilt lock valve	Overhead guard rain cover	Torque converter oil temperature meter	
Tilt adjustable steering column	Torque converter oil dipstick	Tilting cylinder sleeve	
Back view mirror	Combined instrument	Steering cylinder sleeve

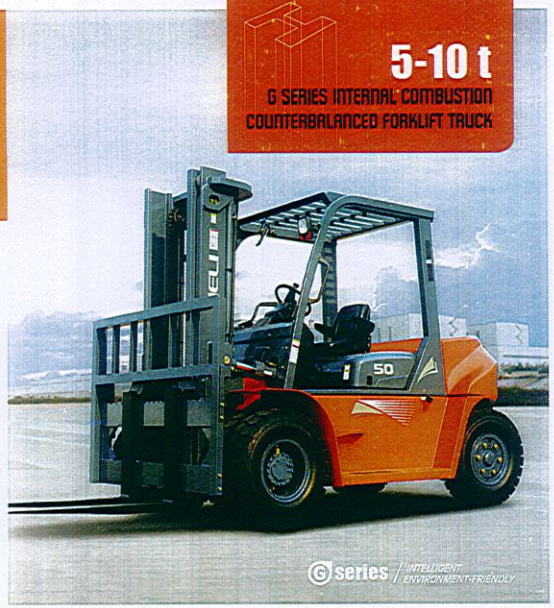
5-10 t
G SERIES INTERNAL COMBUSTION COUNTERBALANCED FORKLIFT TRUCK



HELI
LIFTING THE FUTURE

20 YEARS

G SERIES INTERNAL COMBUSTION COUNTERBALANCED FORKLIFT TRUCK **5-10 t**

Gseries / INTELLIGENT ENVIRONMENT-FRIENDLY

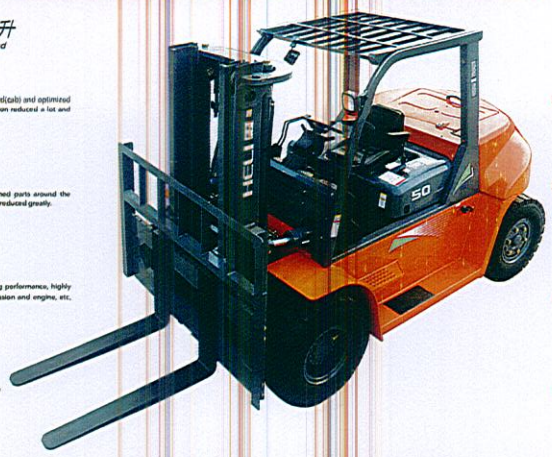
八大技术特性显著提升
technical features remarkably improved

Damping
› With suspension damping structure on overhead guard(cab) and optimized design for the transmission, the whole trucks's vibration reduced a lot and relieve driver's fatigue greatly.

Noise reduction
› Equipped with fully sealed cab and optimize designed parts around the engine, noise nearby ear and the truck sound level are reduced greatly.

Heat dissipation
› With the optimized cooling system and great cooling performance, highly improved the reliability and durability of the transmission and engine, etc. many key parts.

Energy efficiency
› With optimized hydraulic system, the truck is more energy-efficient and lower fuel consumption.



Comfort
› Man-machine engineering design improves operation comfort; wide view lifting system improves vision.

Intelligent gear shifting
› With electronic-hydraulic reversing systerm as standard configuration, make operation more laight and easy; The updated new intelligent gear shifting system could avoid starting with second gear, improves the transmisson box's realiability.

Maintainability
› Wider internal space, more reasonable parts layout and 80°hood opening angle make maintenance easy.

Reliability
› Key parts like frame and mast apply CAE top-down design to improve their strength and make the truck tough.

Independent integrated electric cabinet

LED signal (standard configuration)

Ratchet type parking brake

Intelligent gear shifting

Steering-wheel lock mechanism

Locked fuel tank cover

Folder

Built-in heater(optional)
