

HELI

RELIABLE SPECIAL DESIGNED INSTRUMENT

Standard configuration		Optional	
Hourmeter	Overhead guard	Driver's cab	User specified color
Horn	Standard fork	Warning light	Optional attachments
Oil pressure alarm	Neutral gear switch	High air exhaust device	Sling
Control valve	Hydraulic circuit oil filter	Double air cleaner	Full LED light array
Widely hydraulic powered steering	Electro hydraulic charge pump	Suspension seat	Power switch
Rubber pad	ISO/OPS/SA	Fork extension	Reversing warning speaker
Backrest	Speed limiting valve	Washer	Universal key
Rear view mirror	Oil level gauge	Sidely	Chambered 50mm alarm
Front combined lamp (LED light)	Charging indicator	Wide fork carriage	Electric fan
Transmission oil filter	Wide view mast	Wind shield	OPS's anti-lift function and loading function
Engine flame out device	Air intake device	Purifying muffler	
Ratchet type parking brake	Durable tire with deceleration	Fine extinguisher muffler	
Water temperature meter	Lifting and tilting operating handles	Fine extinguisher	
Oil cooler	Touchscreen	Reverse light	
Air conditioner (optional)	Semi suspension seat	Air conditioner (optional)	
Reversing buzzer (LED)	Hydraulic oil dipstick	OPS's anti-lift function	
Tail back valve	Overhead guard rain cover	Torque converter oil temperature meter	
Tilt adjustable steering column	Torque converter oil dipstick	Tilting cylinder sleeve	
Back view mirror	Combined instrument	Steering cylinder sleeve

G SERIES INTERNAL COMBUSTION COUNTERBALANCED FORKLIFT TRUCK 5-10 t

八大技术特性显著提升
 Technical features remarkably improved

- Damping**
 With suspension damping structure on over-the-rod forks and optimized design for the transmission, the whole truck's vibration reduced 40% and relieve driver's fatigue greatly.
- Noise reduction**
 Equipped with fully sealed cab and optimize designed parts around the engine, noise nearly 50% and the truck sound level are reduced greatly.
- Heat dissipation**
 With the optimized cooling system and great cooling performance, highly improved the reliability and durability of the transmission and engine, etc., many key parts.
- Energy efficiency**
 With optimized hydraulic system, the truck is more energy efficient and lower fuel consumption.

series / INTELLIGENT ENVIRONMENT-FRIENDLY

- Comfort**
 Man-machine engineering design improves operation comfort, wide view lifting system improves vision.
- Intelligent gear shifting**
 With electronic hydraulic reversing system as standard configuration, make operation more light and easy; The updated new intelligent gear shifting system could avoid starting with second gear, improves the transmission box's reliability.
- Maintainability**
 Wider internal space, more reasonable parts layout and 80° hood opening angle make maintenance easy.
- Reliability**
 Key parts like frame and mast apply CAE top-down design to improve their strength and make the truck tough.

Independent suspension steering system | LED signal (standard configuration) | Ratchet type parking brake | Multi-gear gear-shifting | Steering wheel lock mechanism | Locked fuel tank cover | Filter | Built-in heater (optional)
